

**BLUE BAMBOO**

simple. reliable. affordable.

A second-hand car dealer used a third party's iOS & Android applications and Blue Bamboo's P25-M Bluetooth Printer to offer customers real paper receipts.

### **ABOUT this Merchant**

This merchant is one of the second-hand dealers in the US, and started this business in 2005.

### **THE CHALLENGE**

This merchant wanted to receive payments from customers by accepting credit cards through the iPhone or Android tablet/smartphone. Pairs to a smartphone or tablet, via Bluetooth, reads credit cards and prints receipts.

### **THE SOLUTION**

This merchant selected Blue Bamboo's Apple MFi certified P25-M Bluetooth printer, working with an American leading third party's payment solution provider's iOS and Android applications with Chase Paymentech processing to offer a total solution for their second-hand car dealership business.

The merchant downloaded the applications via Apple store or Google Play, registered on this solution provider's website and Chase Paymentech. Transactions completed between merchants and end customers, merchants print two copies of receipts, handing one copy to customers and keep one copy for record.

## **SUMMARY**

This car dealer used a leading payment solution provider's iOS and Android applications and Blue Bamboo's P25 mobile printer to accept credit card payment and print paper receipts for end customers.

Contact Blue Bamboo sales for purchasing the P25 series of printers and the name of the third party payment solution provider at [sales@bluebamboo.com](mailto:sales@bluebamboo.com).
