

BLUE BAMBOO®

simple. reliable. affordable.

Blue Bamboo designs and markets feature-rich and exceptionally affordable products for the POS terminal and peripherals industry, delivering scalable, customer-centric, PCI and EMV compliant wireless payment solutions.

H50A Terminal

Blue Bamboo's all-in-one wireless H50A handheld POS terminal provides anytime, anywhere payment transactions giving mobile professionals the ability to increase sales and productivity while reducing operational costs.

PocketPOS™ P25 Series Printer

With its compact and light weight design, the **PocketPOS™ P25** is an ideal printer for portable applications. Users benefit from a modular design that supports Bluetooth®, Serial or USB connectivity, magnetic stripe reader, and a host of accessories to create a variety of applications. **PocketPOS™ P25i** Printer can print from iPhone, iPad, iPod Touch and other Apple products over Bluetooth wirelessly through the Apple MFi certification. Besides, this device can print from Android tablets, Android phones, Blackberry, Windows and J2ME phones.

PocketPOS™ APP

Mobile Merchant Solution enables a cellphone, J2ME Blackberry®, laptop to quickly accept all major credit and debit cards anywhere, anytime.

BlueView™

A comprehensive Device Management System that provides an integrated, easy to use, open software architecture for single unit and enterprise deployments. Most importantly, the system manages your complete device life cycle from initial set-up, deployment, activation and merchant on-boarding through product and account end of life.

BlueBox™

Bluetooth Class 1 Wireless LAN Access Server hosts up to 7 simultaneous connections in a highly secure and configurable Linux O/S internet appliance. It is ideal for wireless POS networks in hospitality, hotel, retail, stadium, cruise lines and resort segments and includes a performance range up to 100 meters.

BLUE BAMBOO®

simple. reliable. affordable.

PocketPOS™ M5 Card Reader

The undeniable simple and convenient design makes Blue Bamboo's **PocketPOS™ M5** Card Reader the perfect accessory to any iPhone, iPad, iPod, Android, Window's phones and other mobile devices. With an audio port communication connection, it can transform virtually any smart device into a fully functional secure POS. The **PocketPOS™ M5** Card Reader provides fast and reliable card swipe tailored especially for small mobile merchants.

PocketPOS™ M10 Encrypted MSR Card Reader

Blue Bamboo's **PocketPOS™ M10** Encrypted MSR Card Reader is a magnetic stripe reader that communicates with mobile devices via the audio headphone jack. Use your mobile device to read a variety of magnetic stripes, include credit cards, signature debit cards, gift cards, loyalty cards, etc. This encrypted MSR card reader makes the difference to ensure swiping cards to be much more secure and reliable. M10 is tailored for payment applications developed on smart phones and tablets running Google Android, Apple iOS, Microsoft Windows Phone, RIM Blackberry OS, or Nokia Symbian.

PocketPOS™ M15 MSR Reader

The fast, reliable and lightweight design makes the **PocketPOS™ M15** MSR Reader a convenient solution for mobile sales, transportation, delivery and hospitality. It features a USB HID interface making it compatible with Windows, Linux and Mac OS systems.

PocketPOS™ P200 Mobile Payment Printer

The **PocketPOS™ P200** combines mobility, compatibility and security in a complete solution. Its mobile Bluetooth device is certified with numerous payment certifications including Apple's MFI making it compatible with all Apple products including future generations. Furthermore, the **PocketPOS™ P200** is a multimode payment solution that supports MSR, Chip and PIN cards, and contactless near field communications. **PocketPOS™ P200** is certified with EMV level 1 & level 2 and PCI PTS 3.0

CT100

Being durable yet still portable, CT100 reads NFC, loyalty, prepaid and other contactless cards making it ideal in industries of transportation, recreation and restaurants. Its communication supports CDMA and GPRS USB dongle.
